

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Communication from the Adjutant-General's office, in regard to Assembly Bill No. 202, read:

To the Honorable the Assembly:

In compliance with the wishes of your Committee on Claims, I have made an investigation of the claim of E. L. Connell of Lovelock, Nevada, regarding expenses incurred by him in the organization of a National Guard company during the year 1912.

I have made a careful investigation of the records and find that Mr. E. L. Connell was authorized during the year 1912 to organize a National Guard company at Lovelock, although he was not authorized to contract bills against the State. In looking through the records I find considerable correspondence regarding expense that Mr. Connell had been put to, and that there is no question but that the expenditures were made and for the purposes set forth in the relief bill.

Mr. Connell has always taken an active interest in military affairs, and has been of assistance to the Adjutant-General's Department on more than one occasion.

Yours truly, MAURICE J. SULLIVAN, *Adjutant-General.*

REPORTS OF COMMITTEES

Mr. Kaeding in the chair.

Mr. Speaker:

Your Committee on State Prison and Nevada Hospital for Mental Diseases begs leave to report as follows:

That we have personally visited the Nevada State Prison, Nevada State Hospital for Mental Diseases and Nevada State Prison Farm and found the following conditions to exist:

At the Nevada State Prison we found that the general up-keep, discipline and supervision of the Prison and State Prison Farm was in good condition and well managed. The number of prisoners now being cared for is 187. The sanitary conditions are good, considering the facilities for sewerage, which are bad because the solid rock foundation has made the laying of sewers difficult and almost impossible without heavy expense. The roof at the Prison is badly in need of repair. We recommend that no less than \$6,000 be appropriated for the repair of the roof of the old buildings and for such other repairs as may be necessary during the next two years.

It has been brought to our attention that a new cellhouse and cells should be built at the State Prison Farm, which is four miles from the Prison. With the building of this cellhouse and cells, more men could work at the farm and be cared for there. If the Legislature should deem it advisable to build a new cellhouse and cells at the State Prison Farm, we recommend that a bond issue of not less than \$50,000 should be made for this purpose, with which to begin the work.

At the Nevada State Hospital for Mental Diseases, we found that the roof, which has been repeatedly repaired, cannot be so repaired as to prevent leakage through the tops of the old walls, and that it will be necessary to take off the roof and to build a new story, together with a new roof over the entire hospital building. For this we recommend an appropriation of \$30,000. The need of this repair has existed for so long that the building is in bad condition and must be attended to. The building of this new story and the construction of a substantial roof will eliminate the present hazardous condition now existing at the said Hospital for Mental Diseases from possibility of fire.

We find the heating plant at the Hospital badly in need of a new steam boiler, and therefore recommend that an appropriation of \$7,300 be made for the installation of a new boiler.

We find the general management and superintendency of the Hospital, cleanliness and sanitary conditions excellent.

The committee desires to highly commend the Superintendent and Warden and their subordinates for their efficient management of the institutions.

PRESENTATION OF PETITIONS

To the Honorable the Assembly:

The Woman Citizen's Club of Reno, the largest organization of women voters in the State, with a membership of two hundred women, hereby petition your favorable action on Senate Bill No. 35, the Huskey Direct Primary Bill. We want this bill on our statutes, the people want it, and we believe it is a progressive, constructive measure, and shall be greatly dissatisfied to see the session concluded with the bill not passed.

WOMAN CITIZEN'S CLUB OF RENO.

By MRS. HARRY S. PALMER, *Secretary*.

To the Honorable the Assembly:

At a meeting of the Nevada State Medical Association, held at Reno, Nevada, on March 11, 1917, a full and free discussion was had of Senate Bill No. 123 and Assembly Bill No. 267, the title of these bills being identical, as follows: An Act to amend the title and to amend certain sections of an Act entitled "An Act relating to the compensation of injured workmen in the industries of this State, and the compensation to their dependents where such injuries result in death, creating an Industrial Insurance Commission, providing for the compensation and care of workmen injured in the course of employment, and defining and regulating the liability of employers to their employees; and repealing all Acts and parts of Acts in conflict with this Act," approved March 15, 1913, and as amended by an Act approved March 22, 1915.

Upon motion it was unanimously decided that the power conferred by Assembly Bill No. 267 on the medical adviser of the Industrial Insurance Commission gave him the power, literally, to decide who should and who should not be permitted to practice medicine or surgery in the State of Nevada, and what hospitals might continue to exist in this State.

That such arbitrary power is repugnant to our institutions and the manhood and self-respect of every member of the healing art in our Commonwealth.

That the Legislature be and hereby is earnestly requested to defeat the same.

And, further, that Senate Bill No. 123 makes much-needed amendment and improvement in the existing law, and meets with our hearty approval, and we recommend that it be passed.

H. A. BROWN, *President*.

W. L. SAMUELS, *Secretary*.

At a meeting of the Washoe County Medical Society held at Reno, Nevada, March 11, 1917, after fully discussing Senate Bill No. 123, and Assembly Bill No. 267, and having heard read the conclusions and recommendations of the Nevada State Medical Association, upon motion unanimously adopted it was agreed to join in the suggestions and recommendations of our State Association.

GEO. L. SENVOSS, M.D., *President*.

HENRY OSTROFF, *Secretary*.

I desire to call your attention to what appears to be a clerical error in Assembly Bill No. 35, received by me yesterday, with the idea that you may see fit to have your Enrolling Committee withdraw the same that you may authorize the necessary correction.

The error referred to appears to consist in a surplusage in the title and also a failure to provide a definite appropriation.

Respectfully,
